

Garden Crete Lite

GCL by ©Misawa Ltd

- ✚ It is made of Pumice
- ✚ It is lightweight and permeable
- ✚ It has similar characteristics to a Sponge
- ✚ It is premixed with cement and aggregate by experts with the appropriate mixing ratio
- ✚ It is prepacked in plastic bag and convenient and easy to use
- ✚ All you need is Garden Crete Lite, a trowel to smoothen it and just add water !

- ✚ Without the need to go to excessive lengths for Rooftop planting, Garden Crete Lite can reduce the heat phenomenon caused by Global Warming and natural weather in tropical countries
- ✚ Garden Crete Lite is also easy to remove
- ✚ Temples in Japan have installed it and the Housing Authority solely responsible for building quality government housing in Singapore expresses interest in a substantial order.
- ✚ It is recognized as a fireproof Building Material
- ✚ Garden Crete Lite Patent pending 2003-330749 (Mixed with cement and pumice)
- ✚ Patent number Bumicon Garden Crete Patent number 3576423 (Mixed with cement and natural aggregate)
Patent number 3225246(Mixed with recycle aggregate and cement)
